PROFILE

I'm a front-end web developer with a background in computer systems and network infrastructure. My 8 years of IT experience has given me a strong foundation for web development and building complex solutions. I am currently taking a course in GoIT on a Full Stack Web developer, constantly improving my skills and striving to be the best. I am passionate about coding and solving problems through code, and I am excited to work alongside other amazing programmers and learn so much more!
